

## Reuse of Leachates in Hydroponic Crops and Nurseries

- If allowed by salinity and tolerance conditions of the varieties, drainage waters from hydroponic crops may be treated to be used in the same or different crops again.
- Peroxide disinfection and nutrient reintegration through conductivity control allow the utilization of water and nutrients that otherwise would be lost.

**ITC Products:** Controller 3000, Dositec, Dostec-40, and Pump/Tank Controller Package

**PUMP / TANK CONTROLLER PACKAGE**

**DOSTEC 40  
DOSING PUMP**

**DOSITEC  
DOSING PUMP**

**CONTROLLER 3000**
